

ABSOLUTE EMC

EMC TEST EQUIPMENT AND SERVICES THE SECRET FOR ABSOLUTE VALUE

Partner Companies:

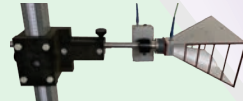

EMZER Technological Solutions, S.L.

EMSCOPE - the only 2 channel real time receiver for easy fast power diagnostics and AD/DC filter development. Optional built in LISN and 3phase testing.

EMC Instrumentation Corp

Offers High Quality Pre-Amplifiers (low-noise amplifiers) and Comb Generators for the EMC market with options for every emissions application Radiated and Conducted.

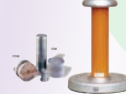

BOLAB Systems GmbH

Specialized engineering and manufacturing company with solid and comprehensive knowledge & expertise in the development, manufacture, and sales of arbitrary, modular, 4-Quadrant high power voltage- and current amplifiers & systems used in aerospace, defense, automotive, institutions, and for many other applications.

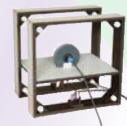

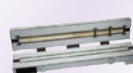

HILO-TEST GmbH

Founded in 1978 and already the following year, the first pulse generator was developed and sold. We are the largest and oldest German manufacturer of EMC devices with a very wide range of Conducted immunity and HV products.

Schlöder GmbH

Manufactures EMC test equipment for over 30 years. Offering ESD test systems, Conducted RF (BC) Generators and Magnetic field generators.

The Conformity Assessment Business

Offering hard to find test equipment items for Military EMC (DEF-STN), Commercial (IEC) Test aids, and small custom applications. Magnetic loops, Quick Check Surge, Burst, Dips, ESD, and DEF-STAN Generators

LUMILOOP GmbH

Power-over-Fiber (PoF) technology with state-of-the-art low-power electronics to design and manufacture high-performance electronic measurement devices which can be applied in the field of Electromagnetic Compatibility (EMC) as well as other RF applications.

GtemCell.com

Offering an extensive list of Shielding Products: GTEM Cells, TEM Cells, Open TEM Cells, IC test Cessls, Shielded Boxes and Anechoic Shielded enclosures, and Reverberation Chambers.

mk-messtechnik GmbH

Since 1999, develop and produces electronic test and measuring systems with high immunity against electromagnetic fields. Camera and Audio systems, OptoLINKs, CAN, USB, Ethernet, LIN, 1394, RS232, TTL, Analog up to 100kHz - 50MHz, UART, DC Power

SCHWARZBECK Mess-Elektronik

SCHWARZBECK Mess-Elektronik is the words most known manufacturer for EMC and RF antennas and accessories. Their products are built by engineers for engineers. Offering superior design and quality for meeting your testing needs.

Seibersdorf laboratories GmbH

Antennas - Accuracy on the highest level, Fully compliant to CISPR 16-1-4 for site validation above 1 GHz and below 30MHz

SteppIR Communication Systems

The New Standard for MIL-STD-461G, Antenna System for 30-200MHz, 200V/m with <2500Watts!

TekBox Digital Solutions Vietnam Co. Ltd.

EMC PRE-COMPLIANCE PRODUCTS- Our design activities have been confronting us with the importance of carrying out EMC pre-compliance testing in house. The EMC pre-compliance test equipment, originally designed to be used in our own lab, served us very well.

Absolute EMC Llc.

Building a reputation of honesty and being responsive to customers before and after the sale. By offering all of the above Partners' Products with a knowable sales force and local support. We also offer items to help support our testing needs such as EMC Test Tables; Wood and Foam, EUT/DUT Support items, low cost Tripod and Monopole systems. EMC RF coax cables. Included vast experience in test system design and build to use your preferred equipment or our Partners. We provide all systems from small pre-compliant turnkey conducted or radiated emissions to full Lab setups for full compliance testing.
