

VPS 250-16

Variable Power Source

According to
IEC 61000-4-11: 2004

Motor-driven variable transformer, controlled by Multi-CE5,
used for power supply variation acc. to IEC 61000-4-11

Technical specification	VPS 250-16
output voltage, adjustable	0 - 250 V 50/60Hz +/- 5%
nominal current	16 A
control analogue by interface of Multi-CE5	0 - 10 V
