

PRODUCT: 15A 5 μ H MICRO LISN

TEST STANDARD: CISPR 25: 2021

The Conformity Assessment Business CAB CISPR15AN has been designed as an ultra compact high current 5 μ H // 50 Ω Artificial Network for testing Automotive DC systems up to 100 V 15 A . With modern laboratory setups, fitting the required number of LISNs on the test bench can be a challenge. With it's really small form factor, the CAB CISPR25AN has been developed specifically to overcome this challenge. All LISNs are supplied with a traceable calibration, this can be upgraded to an accredited (UKAS) calibration at additional cost.
